Il *Dossier*

Five targets, one question each: does this move fix a hole in Gasperini's 3-4-2-1 at a price Roma can pay? Graded on public data and reporting, not film.

The Board

Gasperini said a deeper squad is essential for three competitions. Wesley is drawing £50m Premier League interest, the Oosterwolde deal died on the medical, and Koné and Cristante are injured. These are the holes.

I	Lorenzo Bernasconi LWB · Atalanta · 5/7	Pursue
II	Ruben van Bommel Left 10 · PSV · 6/7	Pursue
III	Endrick ST · Real Madrid · 4/7	Monitor
IV	Issa Doumbia CM · Sporting · 4/7	Monitor
V	Jamie Bynoe-Gittens Left 10 · Chelsea · 2/7	Pass

Order is priority, not score. Bernasconi ranks first because left wing-back is the one position with no natural backup if Wesley is sold.

Score out of 7: role fit (0-2) + form and minutes (0-2) + health (0-1) + deal feasibility at sensible terms (0-2). It grades the move, not the player's ceiling.

PURSUE

Club	Age	Contract	Atalanta's price
Atalanta	**22 (Nov 16, 2003)**	**2030**	**~€25m (reported)**

THE ROLE

Natural left-footed wing-back in the exact system Gasperini built at Atalanta. Lets Wesley go back to the right, or replaces him outright if he's sold. Roma reportedly have him top of Gasperini's left-flank wish list.

THE GRADE

5 / 7

143 Crosses in his 2025-26 breakout (33 games, 27 starts), the volume Gasperini wants from a wing-back. The catch: only 44 were accurate, a 31% hit rate.

IL CASO A FAVORE · FOR

- **System-native:** came through Atalanta's 3-4-2-1. Zero tactical learning curve, which matters for a January signing with no preseason.
- **Creator from wide:** 3 assists and 38 key passes last season, including a run of 8 straight games with a key pass.
- **Size on the flank:** 6'3" helps defend back-post crosses, an area where Roma just conceded three times from corners against Real Madrid.

IL CASO CONTRO · AGAINST

- **Lost his spot:** mostly rotation and sub minutes so far this season, plus 109 Conference League minutes.
- **Knee history:** medium-grade MCL sprain last April ended his season. No surgery, but it's the first thing a medical will check.
- **Defending 1v1:** was overrun by Olise in Atalanta's 6-1 loss to Bayern. One game, but elite wingers are the Champions League test.

CHANGES MY MIND IF

Atalanta hold at €25m+ for a player they aren't starting. Then Oosterwolde (back from surgery around December, Roma reportedly agreed in principle) becomes the cheaper January play.

DEAL PATH

Loan with an obligation tied to appearances, the same structure Roma agreed for Oosterwolde (€1m loan, €15m obligation). D'Amico came from Atalanta, so the relationship exists. Fallback: Cacciamani, 19, left-footed at Torino, but Torino rejected €10m and want double.

PURSUE

Club	Age	Contract	PSV paid / value
PSV	**22 (Aug 3, 2004)**	**2030**	**€15m / €18m**

THE ROLE

Gazzetta reports Gasperini wants a right-footed left winger. He starts wide left and attacks the half-space on his right foot while the wing-back holds the width.

6 / 7

1.95 Expected assists in 532 Eredivisie minutes (about 0.33 per 90), turned into only 2 assists. His creation is running ahead of his numbers.

IL CASO A FAVORE · FOR

- **Starting now:** 7 of 8 league starts, plus Champions League minutes.
- **Repeatable output:** 8 goals and 5 assists for AZ in 2024-25 before the move. It held up across two clubs.
- **Shot volume:** 16 shots in 532 minutes, about 2.7 per 90 from a wide starting spot.

IL CASO CONTRO · AGAINST

- **Discipline:** 3 yellows and 13 fouls in 8 league games, plus a red in the 2025 U21 Euro quarter-final.
- **League inflation:** Eredivisie space doesn't exist against Serie A man-marking.
- **Knee:** injured in September 2025. One clean season since.

CHANGES MY MIND IF

PSV price him above €25m. At that number the value case is gone and he drops to Monitor.

DEAL PATH

PSV are mid-Champions League with no pressure to sell, so January is a stretch. Lay groundwork now around their €15m outlay plus add-ons, and close in the summer.

MONITOR

Club	Age	Contract	Madrid valuation
Real Madrid	20 (Jul 21, 2006)	2030	~€45m (reported)

THE ROLE

Rotating striker sharing three competitions with Castro while Malen plays off him. A quick, linking forward, the profile Gasperini chased in Raspadori. Not a lone target man.

4 / 7

0.87 Goal contributions per 90 on loan at Lyon (8 goals, 8 assists in 1,662 minutes). That's the case for him. It's also one half-season.

IL CASO A FAVORE · FOR

- **Produces when trusted:** the Lyon numbers came as a regular, not off the bench.
- **Links play:** 8 assists at Lyon, so he isn't just a finisher.
- **Did it to Roma:** headed Madrid's 3-3 equaliser off the bench at the Olimpico on Oct 14.

IL CASO CONTRO · AGAINST

- **No minutes:** 4 minutes all season before the Roma cameo. Match sharpness is unknown.
- **Body:** missed four games injured. A 2025 Real Sociedad loan reportedly collapsed over physical issues.
- **Blocks Castro:** Roma just paid €35m+ for a 9. A dry loan stalls him for a player Roma can't keep.

CHANGES MY MIND IF

Madrid accept a purchase option, which D'Amico publicly said is Roma's standard for loans. That moves him straight to Pursue.

DEAL PATH

Mourinho blocked a summer loan. Milan are chasing the same six-month deal and may have an edge through his agency, Roc Nation. Walk away from a dry loan.

MONITOR

Club	Age	Contract	Release clause
Sporting CP	**23 (Oct 16, 2003)**	**2031**	**€80m from Jul '27**

The box-crashing right-sided midfielder in the double pivot, the Koné job. Most valuable if Chelsea return in January with a big Koné bid.

4 / 7

€1m → €26m Venezia's purchase price versus Sporting's, with the second deal four months old. Roma would be buying at the top of that curve.

IL CASO A FAVORE · FOR

- **Midfield goals:** 8 goals and 6 assists as Venezia won Serie B.
- **Rising fast:** first Italy start on Oct 5 and a first Champions League goal at Lens.
- **No adaptation risk:** 25 Serie A appearances already, Italian, knows the league.

IL CASO CONTRO · AGAINST

- **Thin sample:** 8 Primeira Liga games, no league goals yet. The Serie B numbers came a division down.
- **Crowded race:** Juventus and Newcastle lead, and Milan and Napoli already failed.
- **Price anchor:** any January talks start from the €80m clause, not his output.

CHANGES MY MIND IF

Roma sell Koné for €50m+. That money and that hole make him the natural replacement, and he moves to Pursue.

DEAL PATH

No January move. Track through spring. After July 2027 the clause fixes the price and the race goes to whoever pays.

2 / 7

0 Premier League minutes this season. Unused sub in every league game, 55 Carabao Cup minutes, then off on crutches with England U21s.

IL CASO A FAVORE · FOR

- **1v1 carrier:** 4th-most dribbles (36) at Chelsea last season despite only 12 starts.
- **Dortmund record:** 17 goals in 107 games before the move.

IL CASO CONTRO · AGAINST

- **Two injuries in nine months:** hamstring ended his season Jan 31, ankle now.
- **Thin output:** 1 goal and 5 assists in 27 Chelsea games.
- **Wrong structure:** Chelsea want a guaranteed fee, and the summer talks were tied to Koné going to London.

CHANGES MY MIND IF

Chelsea accept a loan with an option well under €40m and he returns from the ankle injury with minutes. Neither looks likely before January.

DEAL PATH

Close the file. Van Bommel offers the same profile with current minutes at less than half the price. Never let Gittens become a sweetener in a Koné sale.
